## Third Quarter Report to Shareholders - For the Nine Months Ended February 28, 2005 (BC Form 51-102F1, Schedule C: Management Discussion and Analysis)

*Dear Shareholder:*

### Introduction

The first two quarters of African Metals Corporation Fiscal Year 2005, starting June 1, 2004, were very quiet as the Company was awaiting the necessary permits to initiate exploration. During the Company's Third Quarter, the necessary permits for the Kenieba Nord diamond concession were issued by the Malian Government, and subsequent to the end of that quarter an exploration program started.

During the first three quarters, the Company raised \$399,500 through the exercise of options and warrants.

### Permit Status of the Diamond Concessions

African Metals has received the necessary Convention d'Etablissement and Arrete de la Miniere for exploration on the 1,063 sq km Kenieba Nord diamond concession. Under the terms of the permit, the Company must spend \$1,562,500 on exploration over the next three years.

African Metals has also received Government approval for the preparation of permits for the 3,205 sq km Soumala diamond concession and the 844 sq km Kenieba Sud diamond concession.

### Kenieba Nord Concession

The Kenieba Nord diamond concession covers an area where 12 known kimberlite pipes occur and where 7 diamonds between 34 and 232 carats have previously been found in alluvium. A program designed to explore for new kimberlite pipes is currently in progress.

To prepare for the program, the results of a regional sampling program for diamond indicator minerals as well as the data from an

airborne magnetic survey, were studied to choose the areas with the best combination of coincident indicator mineral anomalies and magnetic anomalies for the possible discovery of additional kimberlite pipes. From this study, 5 areas were selected for a program consisting of sampling of diamond indicator minerals and operating a ground magnetic survey, both along a grid. One of these areas is in the Guindissou area, where a magnetic anomaly underlies the discovery area of a 34 carat diamond. In addition, a ground magnetic survey will be conducted over 4 known pipes including the +44 hectare Kassama pipe. A diamond drill program is planned after the initial program to test some of the more perspective areas.

To date the sampling work in the Fanson Nord and Batama Nord areas have been completed. One large indicator mineral anomaly has been outlined on the Fanson Nord grid, and less conspicuous anomalies occur in the Batama Nord area.

### The Exploration Team

Planning for and supervision of the projects is carried out by Mamadou Keita, M.Sc. Geo., Willis W. Osborne M.Sc. Geo., and Carl G. Verley, P. Geo. Mr. Carl G. Verley, is the Independent Qualified Person under National Instrument 43-101.

### Overview of Performance

This section compares the performance of the Company during the first nine months of the Fiscal Year 2005. Total assets increased by \$262,944 to \$653,131 due mainly to an increase of \$144,136 in cash and prepaid expenses and an increase of \$111,609 in capitalized costs from mineral exploration. The working capital

surplus increased by \$167,910 over the same period. The deficit has increased by \$116,705 to \$9,657,274 for the first 9 months of 2005.

### Results of Operations

The Company's operations consist of the exploration and development of mineral properties in Mali as well as running administrative offices in Canada and Mali. Administration costs in the first 3 quarters of 2005 increased by \$8,716 to \$116,705 in comparison to the first 3 quarters of 2004 mainly as a result of the addition of a much more active travel and promotion program. Those costs during the third quarter 2005 at \$42,924 were lower than those in the comparable period, 2004 at \$52,067 mainly as a result of lower consulting, travel and promotion costs. Capitalized exploration and development costs increased by \$109,080 in the first 3 quarters of 2005 to \$292,807 as a result of a more active exploration agenda.

### Summary of Quarterly Results

Selected financial information for each of the last eight quarters, starting with the Third Quarter, 2005, is as follows:

Quarter	Revenue	Net (loss)	Net (loss) per share
2005 3 <sup>rd</sup> Q	\$ -	\$ 42,898	\$ 0.003
2005 2 <sup>nd</sup> Q	\$ -	\$ 36,480	\$ 0.003

### Liquidity

The Company's working capital surplus was \$298,537 at the end of the Third Quarter, 2005. During the first 3 quarters of the year, the Company raised \$325,000 through the exercise of 500,000 warrants at \$0.40 and 500,000 warrants at \$0.25, and a further \$72,200 through the exercise of 347,500 options at \$0.20 and 10,000 options at \$0.27 for a total of \$397,200. A total of \$197,200 of these funds was raised in the Third Quarter.

The Company will need to raise additional capital to continue its exploration projects. While the Company has been successful in accessing the equity market in the past, there is no guarantee that this will continue to be available. Management believes it will be able to obtain necessary financing to complete the development and exploration of its projects.

### Investor Relations

Investor Relations services are conducted by Jamie Mathers. This involves liaising with the investment community and communicating with investors and shareholders about the Company's exploration projects and progress.

During the Third Quarter, the Company participated in the Vancouver Investor Conference in January, 2005. The current program in investor relations will continue in 2005. Information on the Company can be viewed online at [www.africanmetals.com](http://www.africanmetals.com).

**1. NATURE OF OPERATIONS**

African Metals Corporation (the "Company") is in the process of exploring and developing its mineral properties located in West Africa.  
The interim financial statements of the Company have been prepared in accordance with the same accounting policies and methods of their application as the most recent audited consolidated financial statements for the year ended May 31, 2004, except that they do not include all of the note disclosures required for annual financial statements. It is therefore suggested that the interim financial statements be read in conjunction with the annual consolidated financial statements.
